Experienced in working in a fast-paced
environment while multitasking

Experienced in building customer loyalty &
engagement

Teamwork and a team player
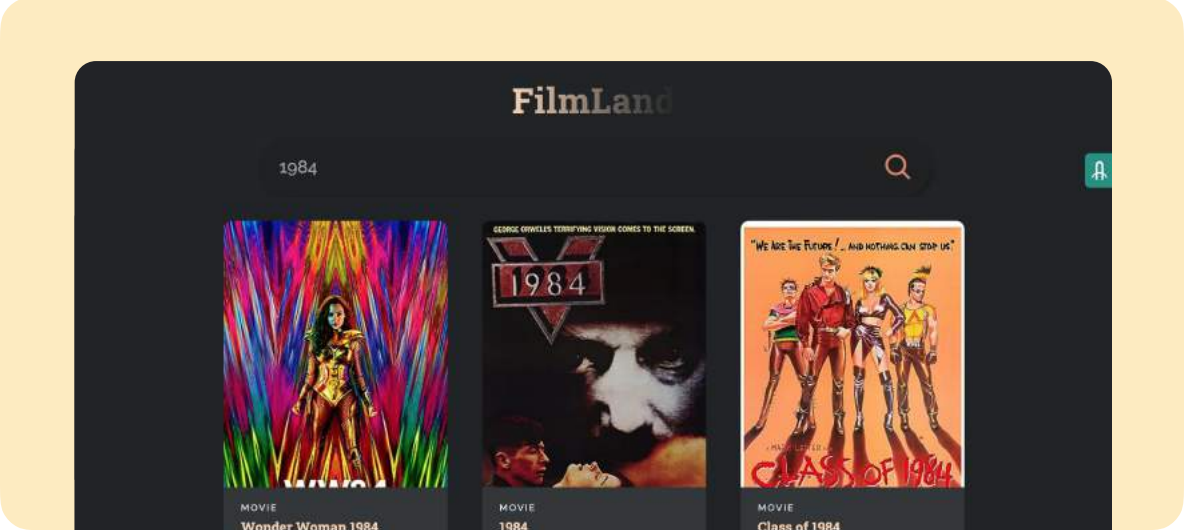

Conflict resolution and problem-solving

Food Delivery App

 https://github.com/MariaKar1991/Food-Delivery-App-Angular

A Food Delivery App using Angular 17 and Bootstrap. Project includes registering the user, user account, menu/cart for stores, retrieving/ sending orders, and searching stores by name and category.

Try it!
https://food-delivery-app-angular.vercel.app/

FilmLand Movie App

 github.com/MariaKar1991/FilmLand-Movie-App

I created this Movie App in order to learn React, JSX syntax and the principles of Responsive Layout. Via this project I learned deeply about different topics such as state, hooks, and data fetching.

Try it!
https://film-land-movie-app.vercel.app/

Chirp Social Media App

 github.com/MariaKar1991/Chirp-Social-Media-App

I created this full MERN Stack Social Media App in order to learn React, Tailwind CSS, Next.JS, Prisma, MongoDB Atlas, and the principles of Responsive Layout. Project includes features such as login, editing profiles, registration, notifications, following users, and commenting.

Team Project collaborating with GitHub

 github.com/MariaKar1991/Team-Project-WeLead-Food-Delivery

In this Team Project I collaborated with two other developers and had the chance to work as part of a dev team using Angular and Github.

Unit Testing with Jest

 https://github.com/MariaKar1991/Unit-Testing-Jest

I created this simple project to demonstrate and apply the usage of Jest for unit testing. It includes Jest configuration, matchers, testing services and observables (asynchronous service testing), testing branches, and timers (asynchronous testing).

E-Commerce React Website

 github.com/MariaKar1991/E-Commerce-React

This E-Commerce React Website includes: newsletter subscription form, product image gallery, product details, related products list, shopping cart and page login/register page.

Bootcamp Website - Bootstrap

 github.com/MariaKar1991/bootstrap-website

Through the process of building this Bootcamp Website, I learned deeply about Bootstrap, how to add scroll-down sections and Responsive Design. The App includes among others a Responsive Navbar, Showcase With Flex Classes, Newsletter With Input Group, Boxes With Bootstrap Grid and cards, FAQ With Accordion, Contact Info and map, and Enrollment Modal.

Try it!
https://bootstrap-website-liart.vercel.app/

CRUD User Management System App

 github.com/MariaKar1991/User-Management-System-App

A CRUD (Create, Read, Update, Delete) user management app that enables management of users' data through a user interface. The App uses technologies such as Node.js, Express.js and MongoDB Atlas.

BookStore MERN App

 github.com/MariaKar1991/BookStore-Vite-React

Users can view, create, search, update, and delete Books from the BookStore App (Vite - React). Inc Table and Card presentation options.

About

Since I discovered my passion for programming in 2021, I've thrown myself into software development learning and experimentation. I've found myself drawn to web development, and now after having completed many courses and developed a number of applications to hone my skills, I am looking for my first software dev role so that I can focus on my love of programming full time.

I am a passionate, inquisitive, highly motivated, and hardworking individual, who is always looking to learn and improve. I am seeking to join a dev team of like-minded individuals, where I can make impactful contributions and assist with whatever needs to be done.

With my outgoing communicative nature, I have a strong aptitude for teamwork and collaboration. In my hobby dev projects, I find myself coordinating dev work with other project contributors via Discord.

From previous work experiences prior to software development, I am adept in resolving inquiries and complaints, building strong customer relationships, promoting brand loyalty, and transforming customer feedback into actionable insights that drive revenue and improve processes.

I always strive to achieve and exceed the goals I'm given. I communicate with people from all backgrounds in a confident and friendly manner, with attention to detail and critical thinking.

Are you looking for a highly motivated junior dev to join your team?

If so, let's chat!

Education

Full Stack Developer, Coding Factory Bootcamp - Grade 100%
Athens University of Economics and Business (2023) - 35 weeks
